Denture repair order form

Please print this form and fill out **Block** capitals

FULL NAME

.....

FULL ADDRESS

.....

.....

.....

.....

TELEPHONE NO.....

EMAIL.....

Important Notes:

1. Do not attempt to repair or glue a broken denture yourself, this can result in a costly visit to your dentist for new impressions and may even make your dentures impossible to successfully repair.
2. Regarding metal dentures: if you have broken a metal denture, it is advisable to contact us in advance so that we can ascertain, firstly, if the repair is possible and if so, to give you a quote.
3. If you are sending your dentures by post, please ensure that they are wrapped carefully and securely and are placed in a box, not a jiffy bag. Also, all items must be sent by recorded or next day guaranteed delivery and make sure to keep your post office receipt and to enclose your cheque or postal order made payable to Teknikron

4. PLEASE READ AND SIGN THE AGREEMENT BELOW:

"I take full responsibility for any items sent to Teknikron's repair service and for any loss or damage which may occur in transit and agree that Teknikron is exempt from any responsibility or cost thereof."
